## **What we've been up to lately....**

We have been relocating a client to new offices in the Melbourne CBD, along with organising and overseeing the new fit out of the office, telephones, computers and alarm system pre move.

We have been buying brand new household goods for clients who have moved into inner city apartments. We did the research, purchased the goods and then had them delivered before they moved in. This freed up our clients time and allowed them to complete their urgent work projects.
